

Neonatal Transfer Service

The team who come to transfer your baby will introduce themselves to you and explain how they will transfer your baby.

They are a specialist team trained to care for sick newborn and premature babies.

There will be a Doctor / advanced neonatal nurse practitioner (ANNP), neonatal nurse and an ambulance driver.

All are specially trained in neonatal transport.

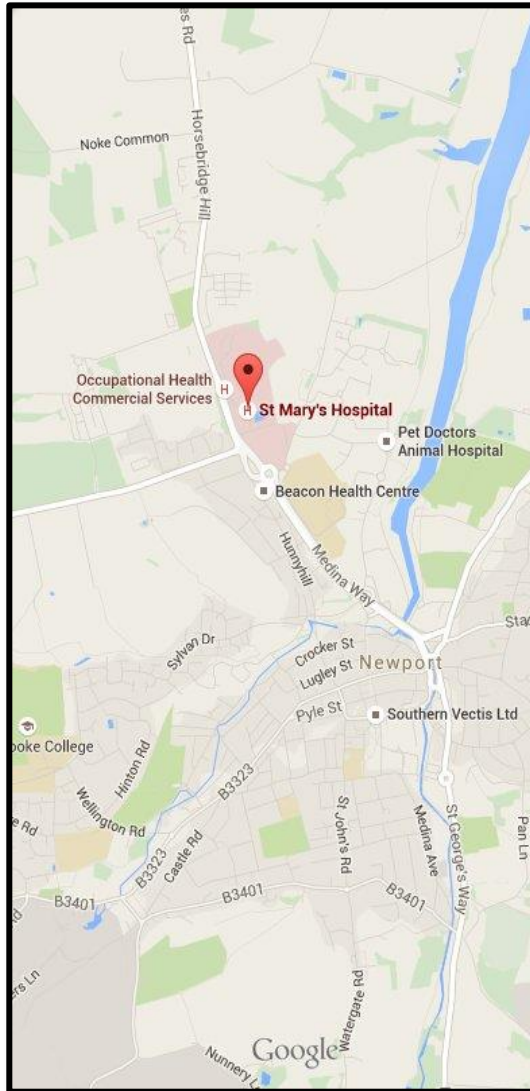

The ambulance carrying your baby will have all the necessary specialist equipment to continue your baby's care and ensure their safe transfer to a local neonatal unit.

Support

For families who need a quiet space there is a quiet/counselling room on the unit. A chaplain is also available to offer support

Midwifery care available for mum

Maternity and SCBU teams work closely together and post-natal care can be arranged through the post-natal ward.

Visiting for siblings and others

Access to the hospital is currently restricted due to Covid19. At SCBU, this means that we are only able to welcome **parents (or carers)** to be with their baby on the unit, at this time.

Facilities & Accommodation for Parents

Overnight accommodation is available for parents to room in with their baby prior to discharge. Food and refreshments are provided.
